EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

CLAIM 7, LINE 4: changed "mans" to --means--.

3. The above change corrects an obvious typo.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-7 are distinguishable over the prior art. As per claim 1, the prior art of record does not show or reasonably suggest, in combination with the other claimed subject matter, a vehicle integrated control system in which a manager is included in at least one node of a plurality of nodes coupled to an intra-vehicle communication network whereby the at least one node has a control means for controlling a functional element capable of avoiding danger of the vehicle in an emergency. The manager supplies operation commands to the other nodes connected to the intra-vehicle communication network and the control means within the node that includes the manager. Dependent claims 2-7 are distinguishable for at least the same reasons.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3661

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record discloses an intra-vehicle communication network in which the manager/coordinator acts as a separate node in a hierarchical control structure (see for example U.S. Patent Nos. 6,622,074, 6,263,262 and 6,301,528). U.S. Patent No. 4,532,594 discloses a redundant/backup control structure relevant to dependent claims 6 and 7.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Zanelli whose telephone number is (703) 305-9756. The examiner can normally be reached on Monday-Thursday 5:30 AM - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Black can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
